

**Job Title:** Technical Specialist

**Location:** Northern NSW / Darling Downs Qld

**Company:** AgBiTech

**Industry Sector:** Agribusiness

**Industry Type:** Technical / Field support / Sales support

**Job Type:** Full Time

**Minimum Years Experience Required:** 3 years of relevant experience

**Salary:** Competitive / Based on experience

## COMPANY BACKGROUND

AgBiTech is a privately owned company committed to providing Integrated Pest Management alternatives for crop production in Australia and overseas. The company's major product, Vivus Max, is a baculovirus-based insecticide that is specific to the insect species *Helicoverpa*.

## JOB DESCRIPTION

This role is predominantly in the field, has a technical focus and requires strong customer relations. You will provide the linkage between AgBiTech and the field, determining customer product requirements by region/crop, and communicating this information to aid in formulation forecasting and the distribution of products. The Technical Specialist will be available to assist growers, consultants, and resellers on technical questions regarding product application and performance.

Designing, undertaking and coordinating seasonal field trials is also fundamental to this role and would include statistical data analysis and report writing.

Special projects will be defined on an ongoing basis in coordination with senior management. These will be primarily related to coordinating contract trials, working with University Researchers and undertaking work related to existing and new product development.

## QUALIFICATION AND SKILL REQUIREMENTS

- Background in Agricultural Science with a minimum bachelor level degree
- Minimum 3 years experience conducting agricultural field trials, preferably in the agricultural chemical sector
- Strong written and oral communication skills
- High degree of competence in the use of Microsoft Excel, along with basic knowledge in statistical analysis/biometry
- Strong organisational skills, attention to detail and ability to work independently
- Willingness to travel extensively throughout Australia to support the Company's customers and market development
